MAINTENANCE GUIDELINE

100% SOLUTION DYED ACRYLIC:

- May be machine washed at 30 C with extra care.
- Do not tumble dry.
- Do not dry clean.
- May be ironed, ironing temperature should not be more than 110C.
- The fabric may be treated with bleach.

100% POLYPROPYLENE:

- May be machine-washed at 40 C with extra care.
- Do not tumble dry.
- May not be ironed.
- The fabric may not be bleached.
- May not be dry cleaned.

ALUMINIUM FRAMES & TOPS:

- **Regular cleaning:** A quick wash with a mild detergent
- **Stubborn Stains :** start by removing dirt and debris. Dampen a clean cloth with a mixture of water and a cleaning detergent, then apply a small amount of detergent directly to the cloth before addressing any stains. For tougher stains, apply the detergent directly onto the affected area and let it sit for one to two minutes before rinsing with clean water. To avoid water marks, dry the surface with a soft cloth. Remove stains and spills as quickly as possible by rinsing thoroughly with clean water and drying immediately with a soft cloth for a spotless finish.

ROPES :

Use a fabric and upholstery protector to give optimal stain resistance.

- To clean spots on the rope, apply a mist of soapy water with a spray bottle, then gently work the solution into the rope using a soft cloth by patting or rubbing lightly. Rinse the solution thoroughly, blot excess moisture with a soft cloth, and allow the rope to air-dry.
Never use a high-pressure hose on rope furniture.

TEAK STRUCTURE & TOPS:

Daily care: Clean your teak furniture with a damp towel or sponge using a mild solution of water and non-aggressive soap.

Address persistent stains:

- Grease stains:** These are natural and usually fade with sun exposure. For faster removal, use a teak degreaser and scrub gently with a brush, followed by rinsing with clean water.
- Mildew or black stains:** Are often caused by rainwater or sap from trees. Avoid placing furniture under trees. Consider using a solution of vinegar and water to help prevent mold and mildew.
- Wine or stubborn stains:** Use a weak solution of bleach and water with detergent to clean the surface.

SYNTHETIC WEAVE:

We recommend giving them a quick wash when dirty or every three months with a mild detergent.
