MAIORI

SINCE 1989

PROVIDER OF GOOD LIVING

The lucidity of expression and the search for simplicity are the key principles: in the work of **Christophe Pillet**, the elegance is optimized. Pillet's perfect command of sensuality and refinement has made him one of the rare French designers who has gained global recognition designing hotels, boutiques and directing artistic projects in the USA, Great-Britain and Japan. He has won international acclaim for the spectrum and quality of his creations. Architecture, objects, furniture, artistic direction, his signature is invariably associated with the finest brands: Lacoste, Jean-Claude Jitrois, Maiori, Catherine Malandrino, Lancel, Le Tanneur International...

A 600 by Christophe Pillet

This **A600** dining set is carefully designed around a discreet yet relevant set of lines. The proportions used, its cleanness, flair, and the contemporaneous of its lines make it impeccable for use in indoor spaces. Made in aluminium and finished in oven cured paint, this table will stay useful for long, no matter the weather, or the use.

Time magazine has described Karim Rashid as the “most famous industrial designer in all the Americas”. Over 3000 designs in production, over 300 awards and working in over 40 countries attest to Karim’s legend of design.

Karim’s work is featured in 20 permanent collections and he exhibits art in galleries worldwide.

For Karim “Design is about the betterment of our lives poetically, aesthetically, experientially, and emotionally”. Rashid expresses his intentions as the “desire is to see people live in the modus of our time, to participate in the contemporary world.

KOSE by Karim Rashid

Cafe Furniture Stackable, light weight and truly different, **Kose**’s curvy aspect embodies all of Karim’s most recognizable design language, while the powder-coated aluminium, with perforated surfaces, adds the MAIORI trademark feel. **Kose** embodies human qualities like emotion, usability, humour, positive energy, and proud spirit that are so often missing from design, resulting in a stacking café armchair that is lightweight and current.

Kose strikes an iconic, minimal silhouette, serving elegance while remaining affordable. Simultaneously embodying firmness and flexibility, **Kose** represents the NOW”. **Kose** tables, with collapsible tabletops featuring blob-shaped perforations to let the rain trespass, are an example of understated and extremely utilitarian café design. In Karim Rashid’s words; “**Kose** more than lives up to its name. A stacking café armchair that addresses the needs of both indoor and outdoor use, **Kose** armchair is lightweight, comfortable, and durable against the elements. It boasts unique blob-shaped perforations in its powder-coated aluminium form, allowing for water to flow through the chair rather than accumulate.

La Lampe is an inspiring, autonomous, state-of-the-art collection of solar lamps that promise to light up your nights wherever you are.

Created from sustainable materials, through low impact processes, and powered by the sun, La Lampe Collection redefines the concept of solar lighting.

MICA

Unexpected, relaxed, irreverently suburban... Designed by the industrial design maestros at MAIORI Design Studio, **Mica** was conceptualized under the principles of utilitarianism. Declaring that good design must be an honest deal, not a luxury. Produced under rigorous sustainable standards, **Mica** offers a full aluminium T6 body, skillfully bent and stamped, a finished with oven cured powder coating. This material choices brands it perfect for use in the kitchenette, the lounge or al fresco.

Elegant yet indestructible, **Mica's** modernism is an eclectic oddity and an exceptional proposal. Its shape transmits optimism for its boldness, indicating a fun radical departure from the dullness and monotony of its contemporary counterparts.
